

ENERGY REPORT

building certification | compliance | testing

**Are you looking for a new role in the construction industry?
We may make a good team..**

Trainee Building Test Engineer

This is an excellent opportunity for an enthusiastic candidate who is keen to learn and gain experience and qualifications in the growing industry sector of energy-efficient buildings. Training will be provided for the successful candidate to obtain a full qualification as Air Tightness Test Engineer, Sound Insulation Tester and Ventilation Tester for new build residential properties.

About Energy Report:

With over 16 years within the industry, we have a wealth of experience in building regulations compliance, we are now expanding our on-site services to provide a quality proposition to our expanding client base. As a small growing business, we are keen to provide a customer-focused solution as well as providing a friendly workplace in our office based in the New Forest.

About the Role:

- Carrying out on site air tightness testing, sound insulation and ventilation testing for clients across the South of England. Travel to other UK destinations may be required by exception
- Calculating floor areas and building volumes on residential properties
- Liaising with site managers & developers
- Maintaining and developing relationships with both existing and new clients to ensure a smooth testing process is achievable, with back-office support
- Travelling to site to carry out building testing for pre-arranged appointments
- Producing certificates using industry specific software
- Flexible site survey appointments between 8am and 6pm
- Being part of a friendly and supportive team
- Full training will be provided - both formal training courses and on the job training

About the Candidate:

Ideally, candidates will be educated to a high GCSE level of Maths and have some knowledge or interest in construction/building. You should have excellent written and verbal communication skills and be confident in face to face client site visits. We are looking for a talented and keen candidate who can train within our business and as such we offer excellent growth opportunities within the role and company.

All applicants MUST have a full UK driving license and a high level of Maths and English.

The successful applicant will use a company vehicle to travel to and from jobs

Role: Trainee Building Test Engineer

Salary: £22,000 per annum, rising to £25,000 per annum upon completion of probation and successful completion of training courses and qualification. The position is full time including 20 days of annual leave (plus bank holidays)

Benefits: Company pension

To apply please send your CV and covering letter to stef@energyreport.co.uk
