Environmental Policy Statement

Energy Report Ltd is committed to operating all facilities in accordance with the company environmental policies and all applicable legal requirements. The company commits to the continuous improvement of our environmental programs

We are specifically committed to:

- The conservation of natural resources through careful planning and efficient use of water, energy and raw materials
- The minimising of waste through source reduction, reuse and recycling
- The handling and disposal of waste through safe and environmentally sustainable methods
- The prevention of pollution, including greenhouse gases and the unintended release of substances that could cause harm to the air, water or land
- Conducting regular environmental assessments at our facilities and making recommendations for improvement
- The annual review of our Environmental Management System to ensure that it is appropriate for the nature, scale and environmental impacts of our activities and products
- Training and encouraging our employees to conduct their activities in an environmentally responsible and sustainable manner
- Establishing environmental objectives and targets and conducting an annual review of our performance
- Making this policy publicly available to all employees and interested parties
- Requiring our supplier and business partners to maintain the same high levels of environmental performance

The Managing Director of Energy Report Ltd is responsible for monitoring the company's sustainability, environmental and corporate social responsibility activities including the implementation of this policy
